

Windshield repair

With the assistance of our Glas-Weld technology to repair your windshields, we can significantly reduce your auto glass expenses. Promptly repairing any chips and cracks will extend the life of your windshield and is an important maintenance consideration. If you are not satisfied with the results of your repair, we will apply those costs against the installation of a new windshield.

The right price, the obvious choice

Because we are locally owned and operated, we can provide you with the most competitive pricing for all your auto glass needs. You will get the highest quality workmanship and materials available, outstanding customer service and the safety you insist on — all at a price that will be easy on your budget.

“Keeping your drivers on the road is our priority. With the choice of Rightway Auto Glass, you will be sure to keep business moving. We invite you to give us a call to see how we can help you and your fleet stay on the road.”

Mark Reese

Business doesn't need to stop for broken glass

Keeping your fleet on the road is our priority

Fleet Management

You have the responsibility to keep your drivers moving and your vehicles safe, despite the hazards of the road.

Your business deserves the best

Whatever your business, it doesn't stop when a problem occurs. Fleet management is your concern and our priority. Keeping your drivers on the road with safe, superior, professionally installed auto glass is the clear advantage your drivers will have with the help of the professionals at Rightway Auto Glass.

Dedicated to helping you manage the quality and costs of auto glass replacement for your fleet of vehicles, *Rightway Auto Glass has been the clear choice in automotive glass repair and replacement for the Twin Cities commercial and fleet industry since 1992.*

"Rightway Auto Glass is a company that goes above and beyond customer expectations."

Jason V.

Rightway Auto Glass has the solutions and services to get you back into your vehicle **fast**

Choice

Because auto glass is an important part of your vehicles' safety system, don't take chances with an inadequate or faulty installation job.

Expert technicians

The professionals at Rightway Auto Glass are NGA certified, are well trained and continually educated on new techniques. We follow the Auto Glass Replacement Safety Standards (AGRSS) for all windshield installations and use only DOT certified glass and FMVSS certified urethane. Commitment to quality auto glass installation is our business and we take it seriously. We provide a lifetime limited warranty on all our auto glass installations for as long as you own or lease the vehicle. We want you to be completely satisfied with the work we do for you.

Reliable service

Rightway Auto Glass prides itself in providing outstanding, personal service to all our fleet customers. We guarantee convenience of scheduling, high quality installation, and above all, safety. Our promise to you is that we will quickly get your vehicles back on the road with superior service, second to none, and meet all your budget needs — better than our competitors.
